Package contains

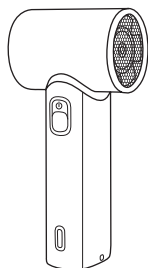

Matters needing attention

- Do not put the product into the fire to avoid the risk of explosion.
- Do not use this product in a humid environment such as the bathroom, contact with water may cause product failure or damage.
- If the product accidentally enters water or other liquid, turn off the fan power switch immediately and let it dry completely before use.
- If the product does not charge, please replace the charging head or charging cable and try again.
- If the product is abnormally high temperature or deformed during the charging process, please stop charging immediately and contact customer service.

- When the product is charged, the charging cable should be pulled out in time, because overcharging will affect the service life of the product.
- Do not charge this product over the specified voltage.
- Do not disassemble or repair this product yourself.
- Do not knock or throw this product from a high altitude, repeated knocks may cause internal damage.
- Keep products out of reach of infants and young children.
- Do not use any form of fast charging head, so as not to cause product failure or damage.
- The product is not recommended for use in places where the temperature is higher than 60°C, continuous high temperature will affect the function of the product.
- When using the neck, please pay attention to prevent hair or foreign matter from entering the fan and causing product damage.
- Children need to be supervised by an adult.
- Do not block the air inlet and air outlet. Otherwise, the product may be damaged.

Upozorenja

- Ne stavljajte proizvod u vatru kako biste izbegli rizik od eksplozije.
- Nemojte koristiti ovaj proizvod u vlažnom okruženju kao što je kupatilo, kontakt sa vodom može dovesti do kvara ili oštećenja proizvoda.
- Ako proizvod slučajno uđe u vodu ili drugu tečnost, odmah isključite prekidač za napajanje ventilatora i ostavite da se potpuno osuši pre dalje upotrebe.
- Ako se proizvod ne puni, zamenite adapter ili kabl za punjenje i pokušajte ponovo.
- Ako je proizvod neobičajeno visoke temperature ili je deformisan tokom procesa punjenja, odmah prekinite punjenje i kontaktirajte korisničku podršku.

- Kada se proizvod puni, kabl za punjenje trebalo bi na vreme izvući, jer će prekomerno punjenje uticati na vek trajanja proizvoda.
- Ne punite ovaj proizvod preko navedenog napona.
- Nemojte sami rastavljati ili popravljati ovaj proizvod.
- Ne udarajte i ne bacajte ovaj proizvod sa velike visine, ponovljeni udari mogu izazvati unutrašnja oštećenja.
- Držite proizvode van domašaja odojčadi i male dece.
- Ne koristite bilo koji adapter za brzo punjenje kako ne biste izazvali kvar ili oštećenje proizvoda.
- Proizvod se ne preporučuje za upotrebu na mestima gde je temperatura viša od 60°C, stalno visoka temperatura će uticati na funkciju proizvoda.
- Obratite pažnju da sprečite dlake ili strane materije da uđu u ventilator i izazovu oštećenje proizvoda.
- Deca bi trebalo da budu pod nadzorom odrasle osobe dok koriste proizvod.
- Ne blokirajte ulaz i izlaz vazduha. U suprotnom, proizvod se može oštetiti.
