

# USER MANUAL

## VIBRA | 38.188.10

### INTRODUCTION

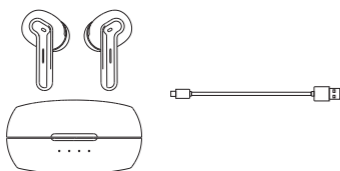

Thank you for purchasing the Wireless Earbuds. Please read this manual before use.

#### Bluetooth Technology - An Overview:

Bluetooth is a type of wireless technology which supports short distance communications (normally within a distance of 10M). You can exchange information wirelessly between many digital devices such as mobile phones / wireless earphones / computers etc. Bluetooth technology effectively simplifies the communication which makes device and data transmission fast and efficient.

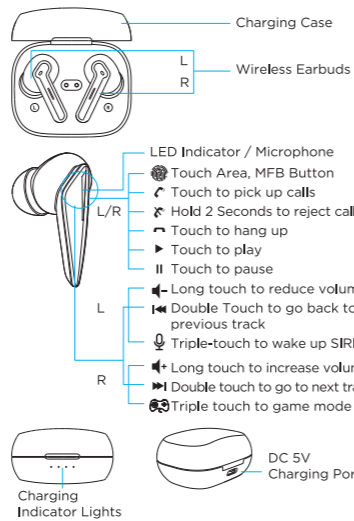

#### ACCESSORIES LIST

- 2X Wireless Earbuds
- 1X User Manual
- 1X Portable Charging Case
- 1X USB-C Charging Cable

-1-

### OVERVIEW OF HEADSET

-2-

### HOW TO USE

#### User Manual

Power on: Take the earbuds out of the charging case and long touch the MFB button for 3 seconds. Power off: Put the left and right earphones into the charging case and close the cover, it will automatically shut down. Alternatively, touch the multi-function button for 5 seconds if the device is not connected. Pairing the Earbuds: the left and right earbuds are paired automatically, no need to manually pair them.

#### Pairing

**Single Earbud Connection**  
1. Take out one earbud from charging case,  
2. Go to Bluetooth on your phone, search "Vibra" and click connect. When the earbud and phone pair successfully, you should also hear the prompt "Connected".

#### Double Earbud Connection

1. When you take both earbuds out of the charging case, the earbuds should connect automatically. After connecting, they should flash quickly, and the left ear light should softly flash. Earbuds then enter pairing status. (Now the earbuds are pairing, and you could open phone or other Bluetooth device to connect.)  
2. Turn on phone or other Bluetooth devices, search "Vibra", click it, and when it has connected successfully, you will hear "connected".  
3. Re-connect automatically: It should re-connect automatically to historically paired devices. (Assuming that the device's Bluetooth is on and the earbuds haven't been removed from the devices list).

-3-

### HOW TO USE

1. Both earbuds should already be paired before delivery. So on first use of the earbuds, you shouldn't need to pair the earbuds manually.  
2. If the left and right earbuds are not be automatically paired, put both left and right earphones in the charging case, and then take them out after closing the cover. The left and right earbuds should then be automatically paired.  
3. After the Wireless Earbuds are successfully paired, the R headset indicator flashes quickly, and the L headset light pulses slowly. Now they should be ready to connect to your mobile phone for use. (If pairing is unsuccessful, please put the headset back into the charging case to reset and then take it out before operating).

#### Troubleshooting:

If the earbuds are successfully connected to your phone but one earbud has no sound, you could turn off your phone's Bluetooth and put the earbuds back into their charging case. When you take them out again, both earbuds should pair within 10 seconds, and the white light will be continuously flashing.

To reconnect your phone, follow steps 1 & 2 above again.

-4-

### HOW TO USE

#### Button Definition

Answer incoming call: Touch the MFB button  
Reject incoming call: Long touch the MFB button for 2 seconds  
Hang up the phone: Touch the MFB button  
Play: Touch the MFB button  
Pause: Touch the MFB button  
Vol + : Long touch the R MFB button  
Vol - : Long touch the L MFB button  
Next Track: Double touch the R MFB (Play status)  
Previous Track: Double touch the L MFB (Play status)  
Siri: Touch L three times  
Game Mode ON/OFF: Touch R three times

#### Status lights

1. Earbuds  
Whist charging, the blue light will remain on; when fully charged, the light goes out; when paired, it flashes quickly.  
2. Charging Case  
When charging, the red light flashes slowly; once fully charged, the red light stays on; when battery is low, the blue light shines slowly; when the battery has been discharged, the blue light flashes continuously.

#### Product Features

- Waterproof IPX6 level, sweat-proof.
- V5.3 chip, low power consumption, super compatibility.
- Hands-free function.
- Truly wireless earbuds, you can use either a single bud or as a pair.

### SPECIFICATIONS

Bluetooth version	5.3
Supported profiles	HSP, HFP, A2DP, AVRCP
Standby time	300h
Talk time	8 hours
Music playing time	7 hours
Charging time	1 h
Charging voltage	DC 5V
Bluetooth operating frequency	2.402G-2.480G
Frequency response range	20H-20KH
Transmission distance	10 m
Earbuds battery capacity	40 mAh
Charging case battery capacity	300 mAh

### SAFETY AND MAINTENANCE

Please follow the below recommendations to prolong the product's lifespan and ensure the manufacturer's warranty remains valid:

- Keep the product dry and do not use in wet or humid environments (such as bathrooms) to avoid short circuiting.
- Do not expose it to the sun or high heat. High temperatures will reduce the lifespan of electronic components, damage the battery and could cause some plastic parts to become defective.
- Do not use or store in extreme low temperatures, to avoid damaging the PCB board.
- Do not under any circumstances attempt to take the product apart.
- Do not drop, shake vigorously or throw the product to avoid damaging the inner electronic circuit.
- Do not use high chemical products or detergent to clean the item. Simply wipe with a dry, lint free cloth.
- Avoid bringing the case in contact with any sharp or rough surfaces to prevent damaging the case and appearance.
- Do not leave the product to charge for 10 hours continuously as this could reduce the lifespan of the product.

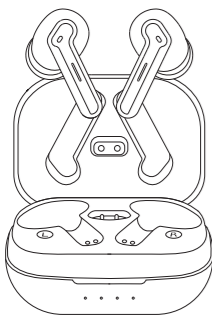

If you experience any issues with the product, please contact your original supplier who will help troubleshoot the problem for you.

Please note, these instructions and functions are subject to change at any time.

# UPUTSTVO

## VIBRA | 38.188.10

### UVOD

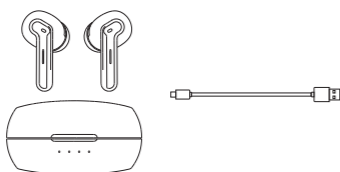

Hvala što ste kupili bežične slušalice. Molimo vas da pročitate ovo uputstvo pre upotrebe.

#### Bluetooth tehnologija - pregled:

Bluetooth je vrsta bežične tehnologije koja podržava komunikaciju na kratkim rastojanjima (obično do 10 metara). Možete bežično razmenjivati informacije između mnogih digitalnih uređaja kao što su mobilni telefoni, bežične slušalice, računari itd. Bluetooth tehnologija efikasno pojednostavljuje komunikaciju, što omogućava brz i efikasan prenos podataka i povezivanje uređaja.

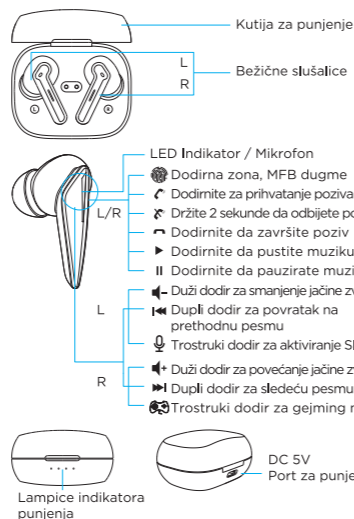

#### LISTA DODATNE OPREME

- 2X bežične slušalice
- 1X uputstvo
- 1X prenosiva kutija za punjenje
- 1X USB-C kabl za punjenje

-1-

### FUNKCIJE SLUŠALICA

-2-

### NAČIN UPOTREBE

#### Uputstvo za upotrebu

Uključivanje: Izvucite slušalice iz futrole za punjenje i duže pritisnite MFB dugme (3 sekunde). Isključivanje: Stavite levu i desnu slušalicu u futrolu za punjenje i zatvorite poklopac, uređaj će se automatski isključiti. Alternativno, ako uređaj nije povezan, dodirnite dugme sa više funkcija 5 sekundi. Povezivanje slušalica: Leva i desna slušalica se automatski povezuju, nije potrebno ručno povezivanje.

#### Povezivanje

**Povezivanje jedne slušalice**  
1. Izvadite jednu slušalicu iz futrole za punjenje.  
2. Uključite Bluetooth na vašem telefonu, potražite „Vibra“ i kliknite na poveži. Kada se slušalica i telefon uspešno povežu, trebalo bi da čujete glasovni signal „Connected“.

#### Povezivanje obe slušalice

1. Kada izvadite obe slušalice iz futrole za punjenje, one će se automatski povezati. Nakon povezivanja, slušalice će brzo treptati, dok će leva slušalica blago svetleti. Slušalice ulaze u režim povezivanja. (Sada su slušalice u režimu povezivanja i možete na telefonu ili drugom Bluetooth uređaju da ih potražite i povežete.)  
2. Uključite telefon ili drugi Bluetooth uređaj, potražite „Vibra“, kliknite na ime i kada se uspešno povežu, čujete glasovni signal „connected“.  
3. Automatsko ponovo povezivanje: Slušalice će se automatski ponovo povezati sa prethodno uparenim uređajima (pod uslovom da je Bluetooth na uređaju uključen i da slušalice nisu uklonjene sa liste uređaja).

-3-

### NAČIN UPOTREBE

1. Obe slušalice su već povezane pre isporuke, tako da pri prvom korišćenju ne bi trebalo da ih povežete ručno.  
2. Ukoliko se leva i desna slušalica ne povežu automatski, stavite obe slušalice u futrolu za punjenje, zatvorite poklopac, a zatim ih ponovo izvadite. Leva i desna slušalica bi tada trebalo da se automatski povežu.  
3. Kada su bežične slušalice uspešno povezane, indikator desne slušalice brzo trepće, dok levi indikator polako pulsira. Sada su spremne za povezivanje sa vašim mobilnim telefonom. (Ako povezivanje nije uspešno, molimo vas da vratite slušalice u futrolu za punjenje radi resetovanja, a zatim ih ponovo izvadite pre dalje upotrebe).

#### Rešavanje problema:

Ako su slušalice uspešno povezane sa vašim telefonom, ali iz jedne slušalice ne čujete zvuk, pokušajte da isključite Bluetooth na telefonu i vratite slušalice u futrolu za punjenje. Kada ih ponovo izvadite, obe slušalice bi trebalo da se povežu u roku od 10 sekundi, a bela lampica će stalno treptati.

Da biste ponovo povezali telefon, pratite korake 1 i 2 iznad.

-4-

### NAČIN UPOTREBE

#### Funkcija dugmadi

Odgovor na dolazni poziv: Dodirnite MFB dugme  
Odbijanje dolaznog poziva: Držite MFB dugme 2 sekunde  
Prekid poziva: Dodirnite MFB dugme  
Pustite muziku: Dodirnite MFB dugme  
Pauza: Dodirnite MFB dugme  
Pojčavanje zvuka: Držite desno (R) MFB dugme  
Smanjivanje zvuka: Držite levo (L) MFB dugme  
Sledeća pesma: Duplo dodirnite desno (R) MFB dugme (dok muzika svira)  
Prethodna pesma: Duplo dodirnite levo (L) MFB dugme (dok muzika svira)  
Siri: Dodirnite levo (L) dugme tri puta  
Gejm mod Uključite/Isključite: Dodirnite desno (R) dugme tri puta

#### Statusne lampice

1. Slušalice  
Tokom punjenja plava lampica svetli stalno; kada su potpuno napunjene, lampica se gasi; kada su uparene, lampica brzo trepće.  
2. Kutija za punjenje  
Tokom punjenja crvena lampica polako trepće; kada je baterija potpuno napunjena, crvena lampica svetli stalno; kada je baterija slaba, plava lampica polako svetli; kada je baterija potpuno prazna, plava lampica neprekidno trepće.

#### Karakteristike proizvoda

- Vodootporne slušalice sa IPX6 zaštitom, otporne na znoj.
- Čip V5.3, niska potrošnja energije, visoka kompatibilnost.
- Funkcija hands-free (ruke slobodne).
- Prave bežične slušalice, možete koristiti jednu slušalicu ili obe kao par.

### SPECIFIKACIJE

Bluetooth verzija	5.3
Podržani profili	HSP, HFP, A2DP, AVRCP
Vreme čekanja	300h
Vreme razgovora	8 hours
Vreme reprodukcije muzike	7 hours
Vreme punjenja	1 h
Napon punjenja	DC 5V
Radna frekvencija Bluetooth-a	2.402G-2.480G
Opseg frekvencijskog odziva	20H-20KH
Domet	10 m
Kapacitet baterije slušalica	40 mAh
Kapacitet baterije futrole za punjenje	300 mAh

-6-

### BEZBEDNOST I ODRŽAVANJE

Molimo vas da sledite sledeće preporuke kako biste produžili vek trajanja proizvoda i sačuvali važeću garanciju proizvođača:

- Držite proizvod suv i ne koristite ga u vlažnim ili mokrim prostorijama (poput kupatila) kako biste izbegli kratki spoj.
- Ne izlažite proizvod suncu ili visokim temperaturama. Visoke temperature skraćuju vek trajanja elektronskih komponenti, oštećuju bateriju i mogu prouzrokovati deformacije plastičnih delova.
- Ne koristite ili ne čuvajte proizvod na veoma niskim temperaturama kako ne biste oštetili PCB ploču.
- Ni u kom slučaju ne pokušavajte da rastavljate proizvod.
- Ne bacajte proizvod, ne tresite ga snažno i ne udarajte ga kako ne biste oštetili unutrašnji elektronski sklop.
- Ne koristite jaka hemijska sredstva ili deterdžente za čišćenje proizvoda. Jednostavno obrisite suvom, bezvlnastom krpom.
- Izbegavajte kontakt futrole sa oštrim ili grubim površinama kako ne biste oštetili futrolu i izgled proizvoda.
- Ne ostavljajte proizvod da se puni kontinuirano 10 sati jer to može smanjiti njegov vek trajanja.

Ukoliko imate bilo kakvih problema sa proizvodom, obratite se vašem originalnom dobavljaču koji će vam pomoći u rešavanju problema.

Napomena: Ove instrukcije i funkcije mogu biti promenjene u bilo kom trenutku.
